

13th June, 1941.

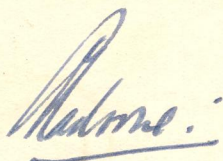

"Beth Simha"

Mrs. Gubbay reports that this building is badly in need of repair.

At my request, she has obtained an estimate (attached) for the necessary work from the same Chinese contractor who has repaired these premises previously and who has done work at the Club and Synagogue.

As we all know, "Beth Simha" is a very old building and, consequently, frequent repairs are necessary.

If my Committee agree, I propose to accept the estimate from Chew Lee and have the work put in hand immediately.

  
PRESIDENT.

A. Raymond, Esq.

*I agree*

E.M. Raymond, Esq.

*approve subject to President's inspection*

S. H. Joseph, Esq.

*The work to be done seems to be the normal requirements. I agree providing the estimate is considered reasonable by the majority.*

L. Walch, Esq.

*If cost is reasonable, this should be done*

M. Talan, Esq.

*I agree if the repairs are essential, but suggest that one of the Committee should inspect the place first and report of his decision & suggestions.*
